

CASUAL SALES STAFF - SHOWBAGS

APPLICATION PROCESS & SELECTION CRITERIA

While it may seem like a great idea to work at the Show, there are definitely some factors you will need to consider prior to submitting your application.

Firstly...if you have never worked before, then you should proceed with caution. The Show environment is not your average retail store.

- The work is repetitive, hours unpredictable & changed with little notice.
- You may be required to work alone & unsupervised.
- The finishing time may be late at night (up to 10pm).
- Show customers may be alcohol or drug affected, abusive, impatient and sometimes intentionally dishonest. Maturity, clear thinking and adherence to training will give you the tools to handle such situations.
- Successful applicants will need to use a cash register with confidence, and serve many customers in a quick and accurate manner.

Therefore, we will assess each candidate on the information presented on their CV, and nominated references & work experiences which can be validated.

The Show will operate from September 1st to 10th, and whilst applicants will not be rostered on for the entire event, we ask that the entire time be made available exclusively for the Show - as extra shifts can be available at short notice. If you are available for less than 10 days during this time, your application may not be considered.

If you believe that your retail experiences (gained in front counter fast food, or other fast paced retail environment), then please download the application form and complete in legible handwriting or type. We cannot reply to applicants who do not include their email address. Return the form by Post to either address printed at the top of the form. Faxed copies sometimes do not transmit, and emailed applications may be stopped by our filtering system.
